Project Description

The TreeVelop partners Mr. Verbeeck and Ms. Duijvelaar have assisted various international, short-listed consortia with the preparation of their bids, methodology sections or technical offers for international tenders related to sustainable development and water management. The following services are provided as single activity or through a combined contract:
• Field missions ensuring the relevant requirements of beneficiaries and local stakeholders to be included in the bid;
• Proposing and selecting suitable international and local CVs, along with drafting the descriptions of required non-key staff;
• Provided a critical analysis of the Terms of Reference as required by EAR and KfW, drafted the conceptual and methodological approaches of different bids;
• Ensured up-to-date budget information on local prices and tariffs;
• Review and editing of locally prepared bid documentation.
