Country	: Moldova
Project Name	: Domestic financial support systems in WSS
Location	: Moldova
Beneficiary/Client	: Ministry of Environment of Moldova
Donor	: OECD
Main contractor	: APC
Period of Project	: Jul 2014 - Jul 2015
Topic	: Economic analysis, PFM
Part of TreeVelop (%)	: na
Total Value (€)	: na
	Project Description
	<p>Principal contribution to EU funded research OECD (2017), Improving Domestic Financial Support Mechanisms in Moldova's Water and Sanitation Sector, OECD Publishing, Paris. http://dx.doi.org/10.1787/9789264252202-en The analysis looks at the mechanisms that channel domestic financial support to water supply and sanitation. These are contrasted to case studies from other countries in the region and discussed with stakeholders. It is based on an international comparison the lessons learned derived from a selection of countries (Armenia, France, Romania and Ukraine). Recommendations were made that will help the Moldovan government, local community water operators and owners of water systems to streamline and strengthen mechanisms of domestic financial support to water supply and sanitation in Moldova. Deliverables included: Description and analysis of Moldovan practises on social aspects of Water Supply and Sanitation Services based on feedback received from counterparts and OECD. Descriptions of alternatives and formulation of possible improvements in the social protection and support mechanisms:</p>

TreeVelop Project and Processes Project Fiche	
Country	: Moldova
Project Name	: Recommendations on improving the Economic Regulatory System for WSS in Moldova
Location	: Moldova
Beneficiary/Client	: Ministry of Environment of Moldova
Donor	: EU
Main contractor	: APC / TreeVelop
Period of Project	: March 2016 July 2017
Topic	: Elaboration of recommendations on improving the economic regulatory system for WSS in Moldova
Part of TreeVelop (%)	: 70.00%
Total Value (€)	: 47.000
	Project Description
	<p>The project has been carried out for OECD with funding from the EU. Its aim was supporting the implementation of a sound economic regulatory system for water and sanitation services in Moldova. The project comprised of:</p> <ol style="list-style-type: none"> 1. A Review and assessment of the existing economic regulatory system including tariff setting. 2. Identification of good international practice and lessons learned most relevant and potentially applicable for improving the economic regulatory system in Moldova. 3. Recommendations on improving the economic regulatory system for water and sanitation services in Moldova. <p>Proceedings have been presented at meetings of the National Policy Dialogue on water and sanitation in Moldova. The analysis has also been discussed in a one day expert workshop in Chisinau and in bilateral stakeholder meetings. The Final Report has taken into account feedback and considerations from the expert workshop.</p>
